SUPERUTILS.COM ANGEL'S VOX V1.7 (APRIL 14, 2012) README DOCUMENTATION

This file describes the product and its features. We recommend that you read it completely before you begin using the software. You may wish to print the contents of this document for your reference at any time.

Contents

Introduction

Angel's Vox is the very first audio player on the market designed specifically for audiobook enthusiasts. How often have you had to find the last track and position played after an interruption in listening? Would you like to listen to several books or podcasts at the same time, and to not lose your place in each one? Would you like to be able to speed-up a book's playback to save you time, or to slow it down when you cannot recognize the speech (e.g., when you are learning a foreign language)? Angel's Vox is an innovative and handy solution!

With the help of Angel's Vox, you can maintain a library of your audiobooks. You can configure a different volume level and playback speed for each one, and their settings will be restored when you replay them. Their track position will also be restored to the exact point where you've stopped listening to them.

Angel's Vox is integrated with Audiobook Downloader Pro, and, like other media player programs, it can also be embedded into the Windows Explorer shell for quick access to its major functions.

Try Angel's Vox for 30 days, and if you find it useful, then please register it.

Minimum System Requirements

Angel's Vox requires that you at least meet the following conditions:

- An NT-based operating system, from Microsoft Windows 2000 up to Windows 7, including x64 editions.

- Intel Pentium II or AMD-K6 300 megahertz (MHz) or better processor.

- 20 megabytes (MB) of RAM.

- 4 MB of hard-disk space.

- Keyboard, Mouse, or other pointing device.

- A screen resolution of 800x600 at 16-bits color depth (High Color).

This program may or may not work on a Virtual Machine or old systems, but its operation is not guaranteed, nor is such usage supported by us.

Installing the Product

To install Angel's Vox onto your computer, run the setup-program and follow the instructions that will appear on the screen.

Updating the Product

If you have one of the previous versions of Angel's Vox already installed on your computer, you may update it by simply running the installer and then choosing an installation path over the existing old copy of program. The installer and the program itself are self-sufficient, and will automatically update all necessary files if needed.

Uninstalling the Product

To uninstall this program from your computer, open the Control Panel folder, and double-click on the "Add or Remove Programs" icon. Select Angel's Vox from the list, then click on the "Add/Remove" button and follow the instructions that will appear on the screen.

Ordering

Angel's Vox is Shareware. This means that it must be purchased before all benefits of the software will become available.

To remove the trial limitations within Angel's Vox, please purchase the product online via this link: http://www.superutils.com/products/angels-vox/#ordering

Upon registering, you will receive your registration details by e-mail. Please, allow up to 1

working day for your information to be processed. After you have received your registration code, run the program. At the trial reminder window, click on the "Enter Code" button, and then enter your name and code into the appropriate field on the dialog panel.

Technical Support

There are several ways in which you can reach us to receive technical support. Registered customers will have priority over non-registered users in all cases. Most support questions will be responded to within 1 or 2 business days.

The quickest way to get help is by visiting our support forum: http://forum.superutils.com/ Please resort to it if you want to discuss the product with others, share your experience, or to post a bug report or a feature request.

If you have a special inquiry, registration problems, an offer, or you simply want to contact us privately, then don't hesitate to contact us via this form at: http://www.superutils.com/contact/
