Aztech *innovate to connect*   **AZTECH TECHNOLOGIES**

Firmware Upgrade Instructions:

Note: Please use WIRED connection (Ethernet cable) in upgrading the firmware.

1. Connect your PC to the HW553's Ethernet LAN port beside the Power Jack using an Ethernet cable.
2. Login to your HW553 Web User Interface, type in **192.168.2.1** on your web browser.
3. Type **admin/admin** for the Username and Password. You will be routed the Aztech WEB User Interface.

4. Click **Advanced Mode** and then go to **System>Firmware**> click the **Browse** button then select the latest firmware then press **OK.**

Filename: 220.106.x-xxx.img

5. Click the **Upgrade** button once you have selected the latest firmware for HW550-3G.
6. Please **DO NOT TURN OFF** or Reset the router when the unit is being upgraded.
   (Note: Firmware Upgrading may take up to 9 minutes)
7. Once the Upgrade is completed, please **REBOOT** the unit.
8. Under **Advanced Mode** go to **System>Reboot>** click **Reboot** button.
