- New Serial Number Required. Contact [support@artenscience.com](mailto:support@artenscience.com) with your old Serial Number
- Mac OSX Lion Compatible
- Faster Operation
- Better Window Handling

### 2.4.1: Released 26th January 2011

- Default window size now works fine nicely on the new Macbook Air
- Smaller Executable, Faster Execution

## Installation Instructions

### New Install - Please Read

After expanding the zip file, drag the R10Clean folder into your Applications folder (Macintosh OSX) or Program Files folder (Windows). You can actually put the folder wherever you like, the above locations are only recommendations. To run the program double click the R10Clean.app file (Macintosh OSX) or R10Clean.exe (Windows).

### Upgrade - Please Read

After expanding the zip file, open the R10Clean folder and drag the R10Clean.app file (Macintosh OSX) or R10Clean.exe file (Windows) into your existing R10Clean folder. When prompted, confirm that you wish to overwrite the existing file.

## 2.4.0: Released 8th September 2010

- Preferences File now Stored in the Program Folder
- Screen Settings Now Stored in the Cache
- The 'Nag Screen' has been Removed
- Preferences Icon added to the Main Toolbar
- Redesigned Font and Font Size Menus
- Full Screen Option

###
